MOUNTING OPTIONS:

MT-48 Ground Stake

MT-49 Surface Mount

ANODIZING PROTECTION:

To increase the corrosion resistance in our products, we use a three-step process:

- 1. Machine 6061-T6 copper-free aluminum.
- 2. Anodized pre-treatment applied.
- 3. Polyester powder coat finish applied.

Xicato XTM LED Modules with Corrected Cold Phosphor Technology

- Flux packages from 700lm to 2000lm.
- CCT range from 2700K to 4000K.
- · Integrated DC driver electronics.
- Efficacy up to 99 lm/W.
- Very tight color consistency, within 1x2 MacAdam ellipses initially and 3 MacAdam ellipses after 50,000 hours.
- A verifiable 50,000 hour/7 year operational warranty.
- · Warranty: 5 Years

Machined aluminum cap with PVC stake for ground-mounting. Designed for mounting single luminaire for ground mount installation of LED driver.

- Machined aluminum cap.
- · 120-277 VAC driver
- Dimmable driver included for use with standard incandescent dimmmers. 10-100% range: 8W, 16W or 31W (specify)
- Seven standard TGIC powder coat finishes and clear anodized finish available.
- 3X 1/2" Slip conduit connectors.
- PVC stake lengths: 12" or 18".
- · UL listed for wet location landscape use.
- · Warranty: Mounting 10 years Driver - 5 years

Machined powered surface mount with cover. Designed for mounting a single luminaire for surface mount installation with LED driver.

- · Machined aluminum construction.
- · 120-277 VAC driver
- Dimmable driver included for use with standard incandescent dimmmers. 10-100% range: 8W, 16W or 31W (specify)
- · Seven standard TGIC powder coat finishes and clear anodized finish available.
- Two 7/8" slip holes. Accepts industry standard conduit connectors.
- Fits onto 4/0 standard J-Box.
- · UL listed for wet location use.
- · Warranty: Mounting 10 years

Driver - 5 years

POWERED BOX MOUNT with TREE STRAP 120-277VAC MODEL MT-50

Cast aluminum box and cover with strap for tree mounting. Designed for mounting single luminaire for tree mount installation of LED driver and fixture.

- Cast aluminum junction box.
- Dimmable driver included for use with standard incandescent dimmers. 10-100% range: 8W, 16W, 31W (specify).
- · Single mount cover included.
- · Seven standard TGIC powder coat finishes.
- Stainless steel ratchet and hook powder coated bronze texture finish.
- Strap lengths of 48", 72" or 120".
- 1/2" NPS mount for use with FA-40L and AL-40L series only.
- · UL listed for wet location use.
- · Warranty: Mounting 10 Years.

Driver - 5 years

PROJECT

Cast bronze powered inground mount with cover. Designed for mounting a single luminaire for inground mount installation with LED driver.

- · Cast bronze housing and aluminum cover.
- 120 277 VAC driver.
- · 8W-31W option.
- Dimmable driver for use with standard incandescent dimmers. 10-100% range: 8W, 16W, or 31W (specify)
- · Seven standard TGIC powder coat finish available.
- 1/2" NPS threads accepts industry standard luminaires.
- 1/2" NPT threads conduit connections (2x).
- · Listed for wet location use.
- · Warranty: Mounting 10 Years.

8 WATT/16 WATT DRIVER

- 120-277 VAC Input
- Output 14 24 VDC
- Dims with TRIAC and ELV dimmers at 120VAC only
- Dims with industry standard 0-10V dimmers (108-305VAC)
- Max Output Power: 10W to 50W
- 2 case sizes, 10-30W and 40-50W
- Efficiency up to 84%
- 90°C Top case rated
- <20% THD, >0.9 PF
- · Fast start up time
- UL 8750 Approved, UL LED Class 2 outputs
- · Class II isolation
- Long Life
- RoHS Compliant

APPLICATIONS AND BENEFITS

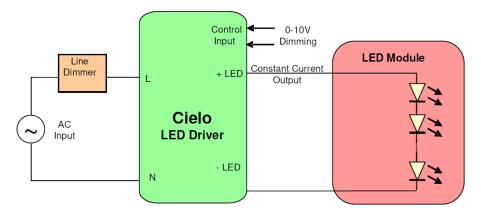

Cielo LED drivers are designed for powering LED luminaries using standard lighting controls.

Their discreet size easily fits into the space constrained LED fixtures of today's growing Commercial, Residential and Architectural lighting markets.

The modules operate with:

- · Standard Light Switches
- · 0-10V Dimmers
- · Triac based Incandescent Dimmers (Forward phase leading edge)
- · Electronic Low Voltage Dimmers (Reverse Phase trailing edge)

The following diagram depicts a typical installation utilizing the Cielo:

Cielo's Dimming Options:

- · Analog Dimming (0-10V) input provides 10-100% lout Dimming
- · AC line dimming from Triac or ELV dimmers (120VAC)
- · Dimming range down to less than 10% nominal output current

31 WATT DRIVER

- Wide input voltage range: 120 277 VAC
- · Constant current output
- Output 20 -43 VDC
- IEEE 1789 Compliant (tested from 50% to 100% Imax)
- · Low dimming level (down to 1 % of max current)
- · IP 64 package
- Low standby power consumption (<0.5 W)
- High efficiency (up to 88 %)
- · Easily programmable via RFID (wireless) or wired tools
- · Programmable output current settings
- Dimmable with 1-10V / 0-10V dimmers. Dim to OFF (DTO)
- Temperature sensor input (NTC) to protect the LED light engine
- · Intended for convection cooling operation
- · UL Class 2 output, reinforced / double isolation
- Wide operating temperature range -30 C up to 90 °C Tc
- · 8-year warranty under useful life condition

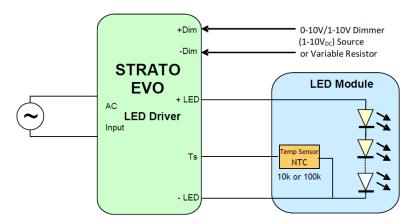

APPLICATIONS AND BENEFITS

STRATO EVO 40W is designed for directly powering LEDs in commercial and industrial lighting applications. The product's extremely small form factor and high efficiency makes it suitable for integration into most light fixtures and standard electrical junction boxes.

A host of integrated control features:

- · Simplify Light Fixture Design
- Ease Safety Approval Cycles
- · Lower Fixture Complexity and Cost

STRATO EVO's versatile control features:

- · A Temperature sensor (NTC thermistor) protects the LED from over-temperature. The NTC can be either a 10 k Ω or 100 k Ω
- · A 2 wire Dimming input provides both output trimming, and 1 to 100 % IOUT Dimming function.
